

Justice Spy News Edition #1

Officer on Duty Vermilion

by Shaylee

Hi Guys! It's Shaylee with some news for you! Have you noticed the officer walking around? They, I have the scoop for you. I interviews Officer Swanson for some data. First question, "Why do we have a cop now? Officer Swanson's answer was clear. "For Safety reasons of course." Question two, "What are your duties here at Justice?" Officer Swanson said "It's to keep us safe at all cost." Question three, "How are you keeping everyone safe?" He said, "I patrol the school in my uniform and armed just in case someone entered our school to hurt us. I would like to add we are very safe and are out of harms way." The last question that I asked was, "Do you feel that I 1 and 12 year olds need a cop at school?" He said, "It is not that we need a cop. It's that we need to always stay safe."

Horton to New Leadership Position by Savannah Harvey

Mr. Horton has left ISS. He left ISS because he wants to keep moving forward and keep improving. He thinks that he will be in Mr. Marshalls position for at least 5 years. Horton feels good about taking Marshalls job. His job duties are still being reviewed.

Car Rider by Mason Delegado

I interviewed a Justice parent on the car rider situation. I asked her how long she has been dropping off a student? "I have been dropping my child off since August." I asked, "What problems do you see with the drop off system?" "Drop off isn't the problem. Pickup however is a nightmare." They went on to say, "The lane for cars isn't wide enough that want to pull in and park. The bell curve is a great idea. It just needs to be used more efficiently. The people who pull in toward the back just jump in line." I also asked how to fix the problem. She thought one solution would be to widen the entrance. Another solution would to use more side walks. Lastly, have more teachers out to keep the student more organized.
