Random Acts of Kindness by Davaja Fouce

RAK — Random Acts of Kindness was a new program started by our guidance office. Students were asked to complete on special task and then turn it in. I interviewed Angel Rangel. I asked him, "What did it say on your card?" It said, "Do something no one else wants to do." I also asked him, "Did you follow it?" He said that he had not done it yet. I also asked him, "What random act of kindness have you done on your own?" He reported that he picks up paper that people dropped. I also interviewed Katelyn Sellers. I asked her, "What did your card say?" Her card said, "Don't butt in when someone is talking." She did complete her card and tried her best to randomly help others every day in class. The last person that I interviewed was Xavier Rooney. I asked him about his card. It asked him to smile at someone. He followed it and said with pride, "When he runs into somebody, he says sorry."

Infraction Tickets by Joseph Delgado

I interviewed Mrs. Nevitt about the progress and procedures of Infraction Tickets.

1. "When do students get an infraction ticket?" "When you violate classroom management plan and continue to break rules."
2. "How bad is it to get one?" "It is bad because it means that you are not listening to teachers and have to report to office."
3. "Why do students get one?" "Because you have broken a rule and need redirection."
4. "How many Justice bucks does it costs you?" "It depends on the information, but anywhere from 1-100 Justice Bucks."

WOW! IT IS ALMOST OVER BY RUBY SAYLOR

The school year has gone so quickly. Some kids might not think so. I interviewed both Kaylee Poe and Aiden Johnson. "I loved the school year because I went down the stairs like WEEE and I also made new friends. I

love math." said Kaylee. "It went pretty fast. Some days or weeks it went slow," says Aiden. "Some thoughts of mine first arriving at Justice was it would probably be a fun new experience." says Kaylee. "I thought it would

be exciting also a BIG CHANGE." said Aiden. For all of us, there has been something exciting about this school year. But remember, it is almost over, so make the best of it.

Pep Rally

By Ella Topping

Our school had a pep rally to get ready for ISTEP. We had MHS Band and Cheerleaders, Innovations (show choir), and *Out Radiance*. Our Master of Ceremony was Mark Fauser. When I interview him, he said, "The pep rally will get kids ready for ISTEP because it shows them how much they mean to the city." He also said, "A great school system makes a great city." I also interviewed our Superintendent Mr. Linday and he said, "Justice students are the best." The band *Out Radiance*, had a really good singer, named Amonte King. He sang "Shut Up and Dance" and "Some Nights". Amonte was also a former Justice student, as well as Micah Hoeksma, the drummer. All the Marion High School students represented us well.

Pep Rally

by D'Nei Smith

I asked some cheerleaders from the pep rally some questions. As a group, they said that they want Justice students to be pepped and excited for ISTEP. I asked, "Who said you to come?" They said that Mrs. Persinger had asked their principal and he said yes. The cheerleaders felt good about doing the pep rally because they want the school system to be great and they are looking forward to encouraging our students. Last year, they did not feel as welcomed. Seera Wolton, Natalya Queen, Kaicey Vice, Bella Bradford and Mi Esha Gipson were the wonderful cheerleaders that I interviewed. The singers and dancers said that they too were excited to get us motivated. They said that they feel good because it is making the future great. Innovations sang and danced to 1650 Melody and Flying Home. Maddison Uncapher and Janne Siei are a big part of Innovations. Mr. Garrett thinks it will motivate. He also thought that it is important for the student to give back to coming the community and our school.

**WANT TO
CHANGE CLASS?
BY SHAI'LYN
LADYGA**

I think that we should be able to change classes in the 5th and 6th grade. There are advantages to having periods. You can talk with your friends in passing periods. You don't have to be with the same teacher and class mates all day. You get to move around more, too. Students feel more mature because they are given new responsibilities. They must be on time, they must have their materials, and they must go to the restroom without the teacher setting the time to go. Mrs. Nevitt thinks kids pass classes with their teachers like team passing. She said some can handle the passing periods on their own but other can not.

Self Contained

by Mason Delgado

Self contained classrooms have many advantages. Being in one classroom can help you learn something more efficiently. You can be focused and teachers don't have to worry about multiple issues. You can be more exposed to one lesson, rather than moving from lesson to lesson when moving to different classes. Your teacher is more likely to be able to instruct small groups or even individuals. If students don't get something, they can understand more with one teacher in one classroom. Plus teachers have tons of different students each day, but in one classroom you can be focused more and more on the individual.

Early Christmas for the Teachers

by Shaylee Vermillion

Have your teachers had more supplies lately? I interviewed Nate Hastings, Manager of TCC (Aden Hastings dad) so you can know why. TCC culture of Kindness is run by Version. Their slogan is, "Teachers Rock!" They give teachers school essentials just in case students forgot or need something. There are 530 stores and they are in 36 states. This is big but the other thing that they do is the backpack giveaway. They also gave \$100,000 to Riley hospital. To know more about them, visit their website at web.cultureofgood.com.

Circle of Grant County

By D'Nei Smith

I interviewed Soren, who is 13 years old, about Circle of Grant County. Soren said that he sometimes does his homework, sits around, and eats. We are usually in the gym. It is located at New Life Church. He said that he likes it because it is pretty fun. Basically, we eat first. Second, grownups lead us while we play or learn. Finally, we leave at 8:00pm. It is from 6:00 to 8:00pm. It is a lot of fun, and maybe you could join us.

THE CELL PHONE DEBATE

NO PHONES PLEASE

By Ky Rhodes

Phones are distracting and noisy, according to my research. Many students reported that their phone make ISS, Detention, and class fun. Phones can also help you cheat on tests. But, in all of these cases most likely you will be caught on your phone. This will cause you to get in trouble for something so silly and not worth it. So NO PHONES please!

VS.

PHONE PLEASE

By Graciella Solis

Yes, people! We should be able to carry around our phones at school. A LOT of you are probably thinking about Instagram and playing games but we actually need our phones at school. Do you dislike getting called out in front of the whole class? Well when we have our phones, the teachers can just write our name down and text us after class and let you know hey quit chatting with your friends. Another we need our phones for is to call our parent/guardian when we are in the middle of an emergency. During passing period, students could text their parent to them how their day has went. This is just a few of the many ways how phones can help.
